## EDUCATION

Information Technology

Duy Tan University

GPA: 3.21/4

2016 - 2020

## MY SKILLS

- **Frontend Core:** Next.js, React JS, TypeScript, JavaScript.
- **State Management:** Zustand, Tanstack Query, Redux / Redux-Saga.
- **UI & Styling:** TailwindCSS, Shadcn/ui, Ant Design, Radix UI, Framer Motion.
- **Backend & Tools:** Node.js, PostgreSQL, MongoDB, Supabase, RESTful API.
- **DevOps & Tools:** Vercel, Netlify, Docker, Git, GitHub Actions.
- **AI:** Cursor, Windsurf, antigravity, Claude Code.

## LANGUAGE

- Vietnamese
- English

## SUMMARY

- Frontend Developer with 5+ years of experience building scalable web applications using React, Next.js, and TypeScript. Specialized in developing enterprise platforms with complex data management. Passionate about clean code, performance optimization, and modern UI/UX practices.

## WORK EXPERIENCE

May 2025 - Present

### FREELANCE FRONTEND DEVELOPER

#### Tech Stack:

- React, Next.js, TypeScript, TailwindCSS, Tanstack Query, Zustand, React Hook Form, Radix UI, Shadcn UI, Framer Motion, Socket.io, next-intl

#### Projects & Responsibilities:

- Built modern web apps using Next.js 15 App Router with server components
- Developed reusable UI components with Radix UI/Shadcn
- Implemented state management with Zustand and Tanstack Query for efficient caching
- Created real-time features using Socket.io and multi-language support with next-intl
- Styled responsive interfaces with TailwindCSS and added animations using Framer Motion

## WORK EXPERIENCE

---

### Key Achievements:

- Delivered 3+ client projects on time with positive feedback
- Improved page load time by 50% through performance optimization

Nov 2022 –  
May-2025

### ● ENJOYWORKS – FRONTEND DEVELOPER

#### Seasonal Worker Management ( [alpha-4.kollabo.kr](#) )

- A Kollabo SaaS platform for managing seasonal workers and workforce data

**Team size: 29 ( My team: 6 )**

#### My Responsibility:

- Integrated 50+ RESTful API endpoints, ensuring seamless data synchronization for a workforce of 1,000+ workers.
- Coordinate with the testing team to identify and resolve application issues
- Involved in the entire development lifecycle, including programming, testing, and deployment phases.
- Optimized application performance, reducing user response time.
- Be proactive at work, have teamwork skills, always complete tasks on schedule.
- Participate in supporting team members.

#### My Achievements:

- Successfully collaborated with the product development team to release versions 2.0 and 2.5 of the project, meeting all deadlines

#### Technologies:

- ReactJS, Next.js, Redux, Redux-Saga, Tailwind CSS, Ant Design, Shadcn UI, Formik,...

May 2022 – ○  
Dec 2022

### Smart Kiosk Management

- A software system managing civil affairs in Jinan province, Korea

**Team size: 15 ( My team: 3 )**

#### **My Position: Team Lead Project**

- Led a team of 3 members to successfully develop a software system managing civil affairs in Jinan province, Korea

## WORK EXPERIENCE

---

**May 2022 –  
Dec 2022**

### ● **Smart Kiosk Management**

- Responsible for all project phases from conception to deployment
- Established coding standards and review processes for the team
- Coordinated cross-functional collaboration between design, backend and testing teams

#### **My Responsibility:**

- Designed system architecture and created code templates for the project
- Managed team tasks and ensured timely delivery of project milestones
- Conducted code reviews to maintain quality standards
- Collaborate with the design team to develop the interface.
- Collaborate with backend team to integrate API through restful API.
- Coordinate with testing team to test and fix application bugs.
- Involved in the entire development lifecycle, including programming, testing, and deployment phases.

#### **My Achievements:**

- Optimized application performance, reducing user response time.
- Successfully collaborated with the product development team to release, meeting all deadlines

#### **Technologies:**

- React JS, Redux, Saga, Bootstrap, axios, Websocket, Janus WebRTC,...

**Jan 2021 –  
May 2022**

### ○ **Other Projects**

- Delivery Goods Dealin
- Farming on
- K-Art Market
- Solar monitoring

**Jun 2020 –  
Oct 2020**

### ○ **AGLITI.IO – INTERNSHIP**

- Training on technologies such as Git, HTML, CSS, SASS, Javascript, TypeScript, NodeJS
- Use tools like VSCode, Postman, Figma...
